PROFESSIONAL SUMMARY

- ❖ Computer Science graduate with hands-on experience in software development, troubleshooting, and collaborative problem-solving delivering functional solutions across multiple platforms.
- ❖ Leveraged 6+ Years of Experience in catering to strengthen task management, customer service, and team collaboration skills building a foundation of reliability and communication under fast-paced conditions

EDUCATION

Bachelor of Science, Computer Science
University of Calgary

Sept 2019 - Nov 2024
Calgary, Alberta

PROJECTS

AutoCotrans | *Python* Apr. 2024

- ❖ Developed a Python script for file uploads and downloads through webscraping, cutting manual input and reducing upload errors through automation.
- ❖ Leveraged Selenium, Webdrivers, and TQDM to provide the status of the file uploads to users and logic to pick up where downloads left off, reducing workload in the event of failures.

YouChat | *React, Node.js, PocketBase, Golang, Docker* Apr. 2024

- ❖ Built a distributed chat application with React, JavaScript, and Pocketbase extended with Go to ensure fault tolerance and reliable database communication, enabling real-time messaging across multiple users and systems.
- ❖ Designed and partitioned work in a group of 5, actively communicating and working off expected endpoints to successfully combine into the final deliverable.

TECHNICAL SKILLS

- ❖ **Languages:** C++, Java, Python, HTML/CSS, JavaScript, SQL
- ❖ **Other:** Git, Linux, Excel, Office 365, Postman

EXPERIENCE

Data Research Analyst Jan. 2026 - Present
TELUS International Remote

- ❖ Evaluated and rated queries against strict quality guidelines, actively providing feedback to improve relevance and accuracy of data for AI and search engine algorithms.
- ❖ Analyzed text, image and map data, identifying anomalies and ensuring adherence to compliance standards.

Waiter Mar. 2017 - Feb. 2025
Win Garden Airdrie, Alberta

- ❖ Processed 30+ financial transactions per shift, with a focus on accuracy, maintaining customer trust and ensuring register balances
- ❖ Managed 20+ customer calls and interactions daily by prioritizing tasks and streamlining workflow, reducing wait times and improving table turnover efficiency
